

**Enhancing Your Retirement,**  
Helping Ensure the Financial Success of Youth

*Welcome*

Welcome to this online course on financial success. This course is designed to help you teach young persons about money. When your young friends finished the course, they will better understand how to manage money. They'll know how to use their money to meet important goals. By encouraging persons to complete this course, you'll help them learn to achieve their dreams!

## How to use this site

Start with the Welcome section first. Then work your way through each section of the course. For best results, follow these steps:

1. At the beginning of each section, watch the introductory video. This video will help you and your young friend understand what's covered in that section.
2. After watching the video, click each subheading in the section. These subheadings reveal important financial principles. Encourage your young friend to ask questions about the topics.
3. Each section of the course ends with an interactive quiz. After reviewing each section, have your young friend take the quiz. You may wish to have her answer the questions.
4. After they've completed the course, your young friends can print an online certificate. Congratulate your young students on their success!
